

Pretrial Fairness Act (PFA) Weekly Dashboard

September 18, 2023 – October 5, 2024

The Pretrial Fairness Act (PFA) Dashboard is a cumulative summary of initial decision points for criminal cases filed in the Circuit Court of Cook County since the Pretrial Fairness Act took effect on September 18, 2023.

Data sources are: administrative data from the Enterprise Justice Case Management System (CMS) maintained by the Clerk of the Circuit Court; Public Safety Assessments; assignments to and weekly caseloads for pretrial supervision, Home Confinement Unit (HCU) – Curfew Program, and the Bischof Program all collected and maintained by Adult Probation’s Pretrial Services Unit and the Social Services Department; and publicly available information on the daily jail and Sheriff’s electronic monitoring program. Summary data for the dashboard are compiled by staff from the Office of the Chief Judge.¹

Composition of All Criminal Cases Filed Since PFA Effective Date

Table 1 shows the composition of all criminal cases filed since PFA effective date.

- To date, 66,530 criminal cases have been filed and recorded in the Enterprise Justice CMS. 43% of all filings had a top charge of misdemeanor/other, 21% were domestic violence cases, and 36% were felony cases.
- The first appearance hearing for 60% (39,859) of criminal cases was in District One, 12% (7,935) were in the Domestic Violence Division, and the remaining 28% (18,736) were in Districts Two through Six.

Table 1. Criminal Cases Filed in the Circuit Court of Cook County Since Pretrial Fairness Act Effective Date by First Appearance Location and Top Filing Charge Level: 9/18/23 – 10/5/24

Total	66,530	28,692	43%	13,846	21%	23,992	36%

* First appearances on weekends and holiday weekdays are conducted in the Leighton Criminal Courthouse.

** In most instances, ‘other’ charges are misdemeanors or less often felonies with insufficient charge information to permit algorithmic classification. Manual classification of these charges is not feasible.

*** Domestic violence cases have a ‘DV’ case type designation and are criminal actions that involve a relationship defined by the Illinois Domestic Violence Act Domestic violence cases are Class 1, 2, and 3 felonies through preliminary hearing, class 4 felonies, and misdemeanors. Of 13,846 cases with this designation, 859 (6%) were felonies, 12,894 (93%) were misdemeanors, and 93 (1%) were unknown class.

¹ Each week, OCJ rebuilds cumulative numbers with the addition of a new week of data. However, all differences in the cumulative data in Table 1 and Figures 1A through 3B from the current week and the prior week will not be due entirely to case activities that occurred in the new week. Lag in data entry will account for a small portion of this difference. Improvements in the programming that process Clerk data will also account for some week over week differences in new filings, top offense, and other dashboard measures.

Decision Point 1: Release by Citation or Held for First Appearance

Figure 1A summarizes release outcomes at the first PFA decision point (decision by law enforcement to release or detain for first appearance hearing) for criminal cases filed since the PFA effective date.

Among all criminal cases filed in the Circuit Court of Cook County since the PFA effective date:

- 44% of the cases were released via citation by law enforcement.
- 55% of cases were held for first appearance hearing.

Decision Point 2: Cook County State's Attorney Office (SAO) Decision to File a Petition for Detention at First Appearance

Figure 2A summarizes the frequency with which the Cook County SAO filed a verified petition for detention at the first appearance for defendants who had a custodial arrest since the PFA effective date.

Among all criminal cases filed in the Circuit Court of Cook County and held for first appearance hearing since PFA effective date:

- Four out of five (82%) cases did not have a petition for detention filed by SAO.

Decision Point 3: Detention Hearing Outcomes For Petitions for Detention Filed at First Appearance

Figure 3A summarizes detention hearing outcomes for cases that had a verified petition for detention filed at the first appearance, for defendants who had a custodial arrest since the PFA effective date.

Among all criminal cases for which there was a petition for detention:

- Nearly three out of five detention petitions (59%) filed at first appearance were granted and defendant was held in custody.

Figure 4 depicts the preliminary court appearance rate for defendants on pretrial release since the PFA effective date.²

From the PFA effective date to October 5, 2024:

- Of the 61,886 criminal defendants released, a subset of 60,147 defendants with an initial hearing scheduled on or before September 28, 2024 were used to calculate the court appearance rate in Figure 4 and Table 2.
- 87% of criminal defendants have not had a warrant for failure to appear issued for non-appearance at scheduled court date.
- 13% of criminal defendants have missed a scheduled hearing date and the court has issued a warrant for failure to appear.³

Table 2 summarizes preliminary court appearance rate by stage at which defendant was released pretrial and top filing charge.

² Consistent with 725 ILCS 5/110-3, a failure to appear is a warrant not quashed on the date of issuance that is in response to a non-appearance.
³ This is a point-in- time measure that does not adjust for defendants’ time on pretrial release. The rate of missing a scheduled hearing date may increase with the length of time that defendants remain in the community prior to case disposition.

Figure 5 depicts the preliminary community safety rate for defendants on pretrial release since the PFA effective date.

From the PFA effective date to Oct 5, 2024:

- 86% of criminal defendants have not been charged with a new misdemeanor or felony offense while on pretrial release.⁴
- 95% have not been charged with any new violent or person crimes while on pretrial release.

Table 3 summarizes preliminary community safety rate by release method and top filing charge.

⁴ This is a point in time measure that does not adjust for defendants’ time on pretrial release. OCJ uses case filing date as the new criminal activity date. The rate of new criminal activity may increase with the length of time that defendants remain in the community prior to case disposition.

Figure 6 summarizes preliminary community safety rate by top filing charge and new alleged crime.

* Other Offense category is composed of motor vehicle, disorderly conduct, offender registration violations, VOBB/VOP/Parole, warrant, and other miscellaneous offenses. UCR Violent category, as formerly defined in the FBI's Uniform Crime Reporting (UCR) Program, is composed of four offenses: murder and non-negligent manslaughter, rape, robbery, and aggravated assault. Person charges include assault, battery, child neglect and other miscellaneous person offenses.

Adult Probation Department (APD) Pretrial Services Since PFA Effective Date

In Cook County, Pretrial Services completes Public Safety Assessments (PSA) and monitors defendants ordered to pretrial supervision, which includes two separate electronic monitoring programs operated by APD’s Home Confinement Unit (HCU) - the Curfew Program and the Bischof Program.⁵

Figure 7 provides a cumulative count of the number of PSAs that have been completed since the PFA effective date.

Table 4 shows the cumulative population dynamics and the percent change in the pretrial services population since the PFA effective date.⁶

The overall pretrial services population **increased 40%** from 6,432 on September 17, 2023 to 8,973 on October 5, 2024.

- The supervision only population **increased 51%**
- The daily HCU Curfew population **increased 12%**
- The daily HCU Bischof population **increased 3%**.

Cook County Jail Population Change Since PFA Effective Date

Table 5 provides the percentage change in the population under the custody of the Sheriff since the PFA effective date.

Since PFA effective date, the number of defendants in Sheriff’s custody has **decreased by 11%** from 7,265 on September 17, 2023 to 6,483 on October 5, 2024.

- The jail’s daily confined population on the two snapshot days **decreased 8%** from 5,419 to 5,012.
- The Sheriff’s Community Corrections (Electronic Monitoring) population **decreased 20%** from 1,846 to 1,471.

Table 5. Percent Change in the Population Under the Custody of the Sheriff’s Office Since the PFA Effective Date

Population Type	Under Custody of Sheriff on:		Percent Change
	9/17/23	10/5/24	
Total Under Sheriff Custody	7,265	6,483	↓11%
▪ Confined Population	5,419	5,012	↓8%
▪ Community Corrections (Sheriff’s EM)	1,846	1,471	↓20%

⁵ The Adult Probation Department’s Home Confinement Unit (HCU) operates two separate electronic monitoring programs for two distinct populations, the Curfew program and the Bischof program. Neither system is superior to the other, but they are appropriate for different purposes. The Curfew program uses both radio frequency (“RF”) and Global Positioning Systems (“GPS”) technology to monitor and enforce curfews that are a condition of release or probation. The Bischof program operates under the authority of the Cindy Bischof Law, and is designed to provide a layer of protection for victims of certain domestic violence offenses. This program uses a GPS ankle bracelet to continuously monitor defendant whereabouts.

⁶ Each week, OCJ adds new program data to the cumulative counts in Table 4. However, all differences in the cumulative data between the current week and prior weeks are not due entirely to new activity. Delays in entry and corrections to GPS and Curfew activation data contribute to these differences. Some small fraction of the pretrial population will be on warrant status.
